Always Serving The Needs Of Our Clients

When you want to place your finances in the hands of someone you trust, Karolia's Business Services can deliver a tailored financial solution on time, every time. With an emphasis on clear, accurate communication, we can help you understand and organize your finances. Whether you need accountancy support for your business or individual advice on financial planning, we offer affordable, reliable expertise.

Consultations

Our service offerings include various advisory services to help clients manage and grow their businesses. Our services include routine planning and analysis, as well as special projects or initiatives. The goal of our consulting offering is to provide information, advice, perspective and tools to help clients make great business decisions.

Accounting Assistance at Year End

We will work with you whether you are a proprietorship, partnership, or a corporation. We begin by reviewing your accounting records and preparing a working paper file for you to ensure that your Financial Statements accurately reflect the results of your business operations. We can also work with your CA – Chartered Accountant at year end to relieve some of the pressure from you.

About our Company

We Are Authorized Consultants and Resellers of Adagio Accounting Software

Adagio Accounting is designed for organizations that manage \$2 to \$100 million in sales/revenue, with significant transaction volume and at least one person responsible for managing those transactions. This modular accounting system combines a batch interface that is easy to understand and control with online processing in order entry and inventory control. Additionally, Adagio provides dynamite-looking invoices, checks and statements on blank paper. All this without being forced to use a mouse during data entry or any of the other accounting procedures. Simple procedures and built-in software make it a snap to fax invoices and customer statements.

Fixing Broken Accounting Systems:

KBS specializes in fixing broken accounting systems. If you know of areas of concern that your business or company may be lacking or not producing the right sort of information to make informed management decisions, then KBS is the right company to help you get back on the right track.

KBS performs the following when fixing broken accounting systems:

- Discussion with management
- Discussion with employees
- Identification of the weaknesses in the system
- Prepare a plan to implement the new accounting system
- Management and employees approval
- Implement new and improved accounting system

In addition to software solutions that maximize customers' unique set of systems,

KBS is also committed to empowerment and the transfer of skills in the workplace.

A bit about our team...

A small to mid-sized company like yours needs every advantage. Better reports; more integration between sales, operations and accounting; responsive, knowledgeable support. There are many ways we can improve your business information and controls to give you an edge in responding to opportunities and controlling profit and loss.

**Profit...Wealth...Success...Purpose.
Building value beyond the numbers**

Of our many years' accounting experience, more than 23 of these have been in providing clients from a diverse array of industries with comprehensive, in-depth consultative support. Our areas of expertise span accounting, financial management, cost containment, and process automation, and my strategies have consistently yielded profitable growth and dramatically improved efficiency.

We hope to harness the experience and insight we have accumulated throughout our career to-date in delivering similar success.
